Hi Ian,

I hope you had a nice Thanksgiving.

You are right to check... we always have a lot of people out in December. Unfortunately, I have even worse news and that is that this one has not yet passed the front end screen so it hasn't even gotten to me to assign yet. The front end processors have been told they have to expedite all incoming coronavirus products so ours are very behind. I just got a couple this week that came in a few weeks before this one so hopefully it will pass the screen soon and I can get it assigned. Once that happens, we'll have a better idea of when we'll be able to complete it.

Sorry for the bad news.

Best regards,
Emily

Good morning, Emily,

I hope you had a good Thanksgiving break.

(though ahead of the Pre-decision due date) I wanted to see how accurate the PRIA timeline (12/28/2020) would be for this action, based on vacations and holiday scheduling. I face those types of resource pressures on my side this time of year, and wanted to keep my team informed if we expect requests to come from the EPA this month.

Thank you!

Yes, I replaced Reuben as PM 25. Thanks for bringing that to my attention, I need to figure out how to get that updated.

Morning, Emily,

Just to confirm...The message below states "Reuben Baris" as the PM for an application, but that means this action has been assigned to you and your team, correct? That makes sense, but don't want to take it for granted.
